About Urban Sketchers and Plein Air group

Artists from Narooma School of Arts' Urban Sketchers and the local Plein Air Group are inspired by their love of the natural and built environment of

Narooma and surrounding districts.

The groups range from very experienced artists to complete novices who enjoy the artistic and social benefits of meeting regularly around the local area. They express themselves through sketching, painting and other

mediums. New or visiting artists are always welcome to join the groups.
